It consists of four 2 bedroom and one 3 bedroom apartments, each with its own allocated parking space. The complex is built in high-tech style. The custom design of the building with the accentuated clarity of its geometrically irregular shapes gives the project a unique character and distinguishes it from all other surrounding real estate properties. The balcony of each apartment presents a peculiar continuation of the central living area. Separated by a glass wall and a door, the living area opens up to the spacious balcony. The apartments are being sold with built-in furniture in the bedroom, as well as fitted bathrooms and kitchen.
